***Response to Amendment***

1. This office action is in response to applicant's amendment received on 9/14/05. Claims 1, 8, 11, and 17 have been amended. Claims 2, 10, 12, 13, and 19 have been canceled. Claims 1, 3-9, 11, 14-18, and 20 are pending on this application. Claim 1, 8 and 17 are independent claims.

***EXAMINER'S AMENDMENT***

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kevin Daffer on October 18, 2005.

The application has been amended as follows:

Claim 15, line 1 changes "10" To -- 8 --

***Allowable Subject Matter***

3. Claims 1, 3-9, 11, 14-18, and 20 are allowed.
4. The following is an examiner's statement of reasons for allowance:

**With respect to claim 1,** the combination as claimed wherein at least the limitation of "the primary and secondary semiconductor memory devices each comprise a midpoint between outer lateral edges of each respective primary and secondary

semiconductor memory device through which a single axis extends substantially perpendicular to the first and second outside surfaces" is not disclosed, suggest, or rendered obvious by the prior art of record.

**With respect to claim 8,** the combination as claimed wherein at least the limitation of "the plurality of primary and secondary conductors are terminated at each respective end through pull-up resistors and output drivers connected to a reference supply; and wherein the power supply conductor comprises at least two laterally spaced coplanar power supply conductors, and wherein one power supply conductor is coupled between the reference supply and the pull-up resistors and output drivers, and wherein the other power supply conductor is coupled between the power supply and the primary and secondary SDRAMs" is not disclosed, suggest, or rendered obvious by the prior art of record.

**With respect to claim 17,** the combination as claimed wherein at least the limitation of "terminating the opposing first and second ends of the conductor with a pull-up resistor to a power supply having a voltage value dissimilar from a voltage value placed on the pair of packaged memory devices" is not disclosed, suggest, or rendered obvious by the prior art of record.

5. The prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Ko and Bhakta et al., taken individually or in combination, do not teach the claimed invention of primary and secondary comprises a midpoint and the power supply conductor is coupled between

the reference supply and the pull-up resistors and output drivers, in combination with other limitations.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

***Prior art***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
